Dr. Valentina Zambrana

Dr. Valentina Zambrana is a licensed physician in Mexico with advanced training in aesthetic, anti-aging, and regenerative medicine. She holds a Master's degree in Anti-Aging and Regenerative Medicine, with a clinical focus on non-surgical facial aesthetics, skin regeneration, and longevity-based therapies. Dr. Zambrana's approach combines medical science with personalized treatment planning, emphasizing natural results, tissue health, and overall vitality. Her work integrates cutting-edge injectable therapies, regenerative protocols, and wellness-focused medical aesthetics, always guided by careful assessment, safety, and a holistic understanding of patient needs. At Almarena, she brings a thoughtful, medically grounded approach to aesthetic and regenerative care designed to enhance both appearance and well-being.
