Current fare listings from Canadian cities include destinations such as: Istanbul Delhi Mumbai Lahore Karachi Jeddah Beirut Bangkok Cairo Ankara The exact destinations and schedules available depend on your selected date and current flight availability. Pegasus AIRLINES Always check the airport listed in your final itinerary to make sure it matches your intended destination.  **Step 3: Select Your Travel Dates** Once you have entered your route, select your departure date and, for a return journey, your return date. You can choose a one-way Pegasus Airlines flight or a round-trip Pegasus Airlines flight, depending on your travel plans. Your travel dates can have a significant effect on the available fare. The Pegasus Airlines Canada website displays fares based on current availability, and the airline warns that displayed fares may no longer be available when you actually complete the booking. Pegasus AIRLINES When your schedule is flexible, checking nearby dates can be useful. You may find different flight times, routing options, or prices by moving the trip by a few days. However, don't choose a date solely because it shows a lower fare. Consider the complete itinerary and whether it actually suits your travel schedule.  **Step 4: Select the Number of Passengers** Next, tell the booking system how many people will travel. Enter the appropriate passenger count and select the relevant passenger type where required.

For international travel, carefully enter each passenger's information. Names should be checked against the travel documents the passenger will use. A small typing error can create unnecessary problems later, so review names, dates of birth, and other required details before moving to payment. For families traveling together, it is especially important to check every passenger before completing the reservation.  **Step 5: Choose Your Travel Class** The booking process also allows you to select the available cabin class for your journey. Depending on the route and availability, you may see options such as: Economy Class Business Class Pegasus Airlines' Canada flight pages currently display both Economy and Business Class fares on selected Canadian routes.
